

Welcome to Arm Online Training

Arm online training gives you access to Arm training any place, any time on your laptop, tablet or phone. Topics are organised into communities of bite sized video content with the ability to share, follow and comment on them, as well as testing your knowledge.

This guide takes you through the steps you need to take to gain access to it and to getting started in using it.

It covers

- **How to register for an Arm Account** – a single sign on approach giving you online access to a wide variety of Arm services including online training, with a single log in and password
- **How to Navigate the system** accessing topics for social learning and learning plans for a more formalised sequential approach to the content.

We wish you every success with your learning, look forward to hearing your feedback and seeing your progress.

Registering for an Arm Account

To login to Arm Online Training, you will need an Arm Account. Please note, you may already have one set up if you have registered to use Arm's online support services.

If you do not have an Arm Account, please follow the steps below to sign up for one.

1. To register, please enter this address into your web browser:

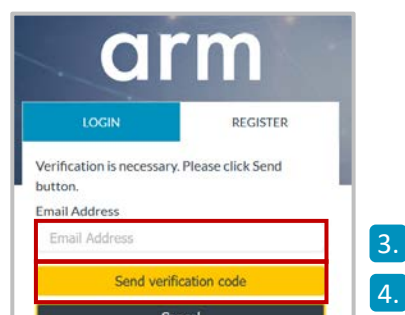

<https://training.developer.arm.com> 1.

You will be redirected to an Arm registration / log in screen. If you have an Arm Account, enter your email and password (this will be the same that you use for Arm support cases).

 2.

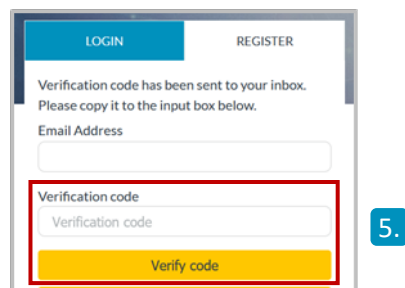

2. If you do not have an account, click **Register**.

3. Enter your email address.

 3. 4.

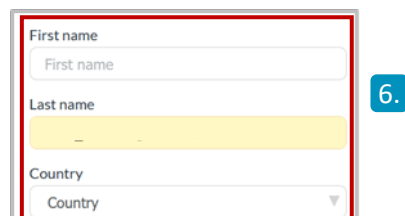

4. Click **Send verification code**. A verification code will be sent to your email address. Open the email containing this code.

5. Enter the verification code and click **Verify code**.

 5.

6. Once your email address has been verified, enter

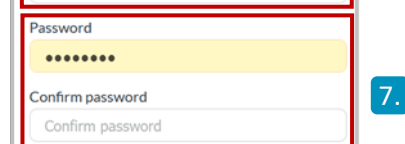

- First Name
- Last Name
- Country

 6.

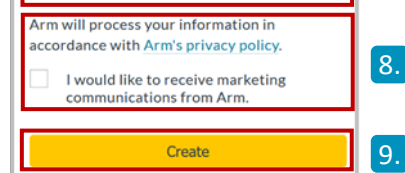

7. Enter a password, confirm the password

8. Read Arms Privacy Policy and opt in or out of receiving marketing communications from Arm

9. Click **Create**.

 7.

You are now ready to log in to the Arm Online training platform.

 8. 9.

Accessing Arm Online Training

Once you have set up your Arm account, you can access the Arm Online Training by entering the following address into your web browser:

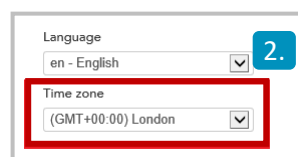

<https://developer.arm.com/training>

1. Click the Access training link under the OnDemand header

1.

Access training

2. You may be prompted to update your time zone. Please set this to the same time zone that your computer is set to.

Language
en - English

Time zone
(GMT+00:00) London

2.

Using the Platform

1. Click the **Arm Training Logo** in the top left hand corner to return to the home screen

2. Use the **sidebar menu** to access other elements of the system or to get quick access to communities or learning plans.

3. **Structured Learning Plans.** Use the arrows to navigate between the structured learning plans you have been granted access to. Each learning contains training on a number of related topics.

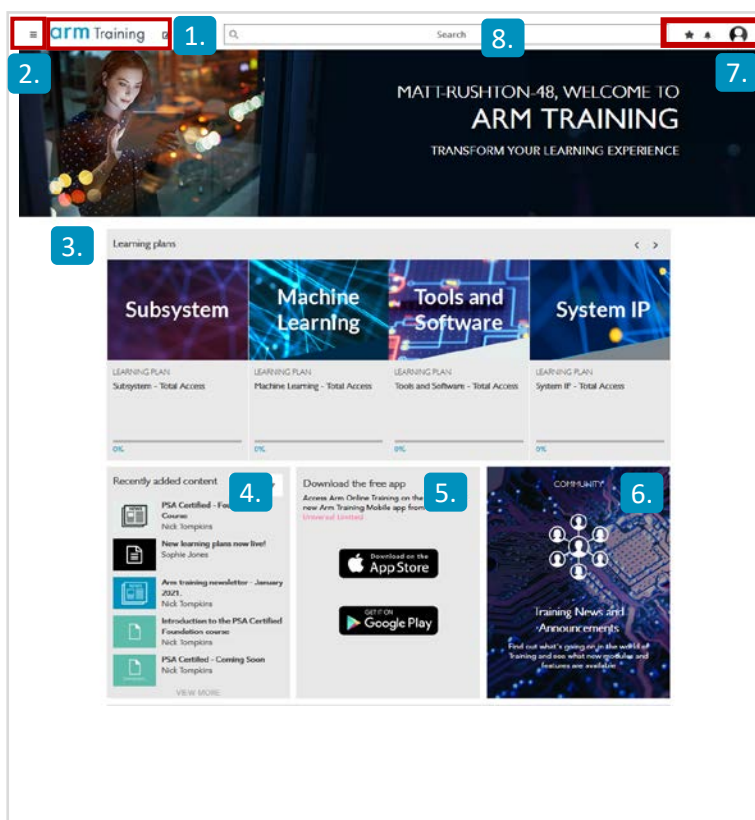

4. **Recently added content** highlights new documents added to the site.

5. **Apple and Google Apps** are available for mobile access and offline viewing of videos

6. **Training News and Announcements** share details of what new content have been launched as well as the location of the Arm Training Newsletter Archive

7. Monitor and set your system-generated **notifications** or amend your time zone via the **user profile** menu.

8. Use the **Search** function to look for specific videos, topics or people
